

Program Philosophy...

Our program philosophy is based upon the principles of normalization and inclusion. Broadmoor Community Services encourages adults to make personal decisions and choices throughout the day while providing skills training and support through the use of community services, resources and social environments. The skills necessary to successfully adapt to the community are taught in an individualized program designed to prepare each resident for the challenges and inconsistencies of everyday life.

Other Services Offered:

- *Residential Services
- *Respite Services
- *Adult Day Program Services
- *Behavioral Day Program Services
- *CPR/First Aid Classes
- *Autism Spectrum Disorders Training
